IV. Reports

A. Planning Subcommittees
   • Budget Planning: Bob Isomoto and Howard Stahl, Co-Chairs. Vice-President of Enrollment Development Teresita Rodriguez attended the meeting to present information on the softening of enrollment. This generated a discussion about what the District might do to address the issue. Data has been studied that reveals there are fewer students in high school which makes it a declining market. Consequently, a variety of strategies are being explored to attract new markets. One concept under discussion is a pilot program to offer an early summer session to capture students who are full-time at four-year universities
whose spring semester ends mid-May. This early summer session, if piloted this summer, would not alter the regular summer offerings beginning on June 20th. If implemented, the added session would need to be put together quickly since the classes would start May 16th and there would need to be enough time for marketing and enrollment. There were some questions and concerns about this idea raised at the meeting, and it was agreed that the concept of pilot program of an early summer session as well as other strategies to address the softening of enrollment will be placed on the agenda for the next DPAC meeting.

- College Services Planning: Mike Tuitasi and Joan Kang, Co-Chairs: No report
- Facilities Planning: Greg Brown and Lee Peterson, Co-Chairs: The committee received an overview of the construction projects in progress, discussed air conditioning and future facility planning. It will discuss the master planning process at the next meeting.
- Human Resources Planning: Tre’Shawn Hall-Baker and Patricia Burson, Co-Chairs: The committee has completed its review of Administrative Regulation 4316 – Alcohol Testing for Transportation Employees. It will be discussing Title IX and recommending revisions to Administrative Regulation 3122, Sexual Misconduct.
- Technology Planning: Dan Rojas and Walter Meyer, Co-Chairs: Following are Technology Planning Committee Goals:
  - Promote a wider campus awareness of the transformational potential of technology
  - Promote greater mobile availability
  - Promote up to date Department/Faculty/Program web pages
  - Promote a smooth transition to the new Course Management System
  - Promote greater access to Single Sign On for faculty, staff and students
  - Promote digitization, organization, distribution and archiving of learning on campus
  - Promote improved college-wide technology infrastructure
  - Promote Accessible Digital Educational Resources

The committee will be developing its objectives and recommendations for 2016-2017.
