• Institutional Effectiveness: Christine Schultz and Esau Tovar, Co-Chairs, and Erica LeBlanc, Vice-Chair: The committee is developing a data bank for administrative unit outcomes so they will be saved in a central place and mapped to the supporting goals. On the instructional side, there are three departments that have not entered their SLO’s into ISIS. Also, in order to finish the counseling component, an ISIS module needs to be added to allow for inputting assessment data.

C. ACUPCC Task Force: The Task Force is working on the Climate Action Plan (CAP), specifically in the areas of education, energy and transportation.

D. Associated Students: No report

E. State Budget Update: Following are highlights for community colleges of the Governor’s Budget Initial Budget Proposal:
• No reduction in apportionment (dependent on passing of temporary tax initiative)
• No growth monies, COLA, or categorical program restoration
• Categorical programs will be funded in a “flexible” block grant
• Funding increases start in 2013-14 (dependent on passing of temporary tax initiative)
• If tax measures do not pass, mid-year “trigger cuts” of $260 million will be implemented. SMC’s share would be approximately $5 million.

A chart was distributed showing a comparison of revenue with and without mid-year cuts projected through 2013-2014.

F. Strategic Planning Task Force: A draft of the revised Vision, Mission and Goals statement was presented to DPAC for information. Each constituency representative was asked to present the draft statement to their respective groups, solicit input and present comments and suggestions to DPAC early in the spring semester.
V. Agenda

Public Comments – None

A. Institutional Effectiveness Performance Measures (Dashboard): A summary of key performance indicators in the categories Sustainable/Physical (4.1–4.4) and Supportive Collegial (5.1) were reviewed to determine which indicators should have targets. It was agreed that both categories need to be expanded with additional key performance indicators. Since the Sustainable/Physical goal covers all elements of the College's infrastructure, the addition of performance indicators for technology was suggested.
