IV. Agenda

Public Comments: None

A. Budget Update
    • District Audit: The District has received another clean audit. The 2011-2012 independent auditors’ report expressed an unqualified opinion on the financial statements of the District. This is the best opinion the auditors can give regarding the District’s financial statements. There were zero findings/deficiencies noted in the audit.
    • State Budget: The Governor’s proposed State budget 2013-2014 provides a $197 million increase to the base to be used as follows:
      • 2 percent for enrollment restoration
      • 1.65% increase for COLA
    For Santa Monica College, these percentages translate into $1.9 million for restoration and $1.5 million for COLA, for a total of $3.4 million.

-Over-
The Governor also proposes to divert $20 million of the deferral buy-down funds to restore the student support categorical funds; $300 million for the community college adult education system, $15.7 million for community college apprenticeship program, $16.9 for “virtual campus,” and $49.5 million for energy efficiency projects and expansion of green jobs training. The promotion comes with some recommended community college reforms related to online education, adult/noncredit education and funding based on student success. More clarity on all parts of the proposed budget and related policy issues will be provided between now and the May Revise.

- District Budget: Revenues for the last five years (total $615,875) have been relatively flat while expenditures have steadily increased (total $9,781,516). Even though Proposition 30 passed in November, there is no new money for 2012-2013 and the college is operating with an $8 million deficit. Currently, there is a $6.5 fund balance. The District will need to be careful about managing its budget and reviewing expenditures in all areas to restore a balanced budget in the near future.
