The Board of Trustees hereby unanimously resolves that an emergency repairs were necessary due to a leak in the Central Plant piping system that provides cooling for the Library, Media Center, Science Building, HSS Complex, Business Building and Core Performance Center.

This emergency repair was necessary to ensure proper cooling for critical equipment campus wide. The impact from this leak had the potential to cause a significant disruption of services for students as well as potential failure to Information Technology equipment and Fire Life and Safety Systems.

BP 2515 DISTRICT PLANNING AND ADVISORY COUNCIL

The Board recognizes the District Planning and Advisory Council as the advisory body primarily responsible for making recommendations to the Superintendent/President on matters that are not otherwise the primary responsibility of the Academic Senate (BP 2210), Classified Staff (BP 2220), Associated Students (BP 2230) or the Management Association (BP 2240). Issues include, but are not limited to, District budget planning, facilities planning, human resources planning, and technology planning. Discussion of these issues by the Council will not supplant the collective bargaining process.

It is the responsibility of DPAC to facilitate the District's long-term planning efforts, including the assessment of the College's planning process. Every five years, DPAC develops recommendations for new Strategic Initiatives and reviews the Vision, Mission and Goals. DPAC also develops annual action plans that support the five-year strategic initiatives and objectives.

The District Planning and Advisory Council shall comprise representatives of the faculty (Academic Senate and Faculty Association), classified staff, students (Associated Students) and management (Administration/ Management Association), who shall mutually agree upon the numbers, privileges, and obligations of Council members. The District Planning and Advisory Council shall establish its own procedures in conformity with the law.
