**RECOMMENDATION NO. 12    GANN LIMIT, 2006-2007**

*Requested Action: Approval/Ratification*

Adopt the 2006-2007 Gann Limit for the Santa Monica Community College District as \$110,526,318 and the 2006-2007 Appropriation Subject to Limitation as \$96,508,376.

Comment:     The Gann Limit figures are based on the prior year limit amended by a State formula. The Appropriation Subject to Limitation is based on the Adopted Budget for 2006-2007.

The Gann Limit is the maximum amount of tax driven revenues that may be budgeted by law. The Appropriation Subject to Limitation is the amount of tax driven revenues that are expected to be available for budget purposes. These tax revenues include state and local levied taxes. Because Santa Monica College has historically been a low revenue district, and because community colleges have not been funded at a rate which would keep pace with the growth and price inflator factors found in the Gann Limit, the appropriation amount is significantly below the Gann Limit.

**RECOMMENDATION NO. 13    CLAIMS FOR DAMAGES**

*Requested Action: Approval/Ratification*

Reject the following claims and refer the claims to the District’s claims management firm:

<u>Claimant</u>	<u>Date Filed</u>	<u>Amount of Claim</u>
Sheila Halcomb	10/09/06	Undetermined

Comment:     The claimant, a part-time counselor and instructor, alleges she has exceeded 60% of a fulltime load for at least the last three years. As a result, claimant alleges she qualifies for a fulltime assignment, pursuant to Ed Code Sections 87482 and 87482.5 and is seeking damages in the form of lost salary and benefits and future fulltime assignments. Only rejection of the timely portion of the claim (those acts occurring within 6 months of presentation) is recommended, as the late portion of the claim (those acts that accrued longer than six months prior to the date of presentation) will be returned as untimely.

The District is still in negotiations with the faculty as of June 30, 2006. For fiscal year 2006-2007 the District is projecting a structural deficit of \$3.5 million without the inclusion of one time funding. The District will need to reduce this structural deficit during the 2006-2007 fiscal year through good budgetary management.

**4. APPOINTMENT OF NEW MEMBER**

At its meeting on August 14, 2006, the Board of Trustees appointed Lorraine Sanchez to the Citizens' Bond Oversight Committee for a two-year term, 2006-08.

**5. REPORTS and DISCUSSION (reports enclosed)**

Summary of the role of the Committee: Members of the Citizens' Bond Oversight Committee (CBOC) represent the community and the taxpayers in overseeing the District's spending of bond funds (Measures U and S) to make sure that the funds are spent appropriately. Staff provides financial reports and construction project updates. The Board sets the budget, hires the architects, and approves the contracts for the bond construction projects. The Board of Trustees receives all minutes and the annual report from the CBOC.

Update on Completed Construction: Two buildings were opened in fall, 2006 - Theater Arts Complex and the Liberal Arts Replacement Building (north) now named Humanities and Social Sciences (HSS). The second phase of the Liberal Arts Replacement Building (south) will be open in summer 2007. The Performing Arts Center and Music remodel at Madison will open next fall.

Property Acquisition: The District made an offer on property in Malibu; however, it did not work out and the agreement has been rescinded. The District is still looking for property in Malibu, focusing on the Civic Center area. The District is also pursuing property in Santa Monica for shuttle parking in order to relocate the temporary shuttle parking arrangement at the beach.

Bond Measure: State Facilities Bond measure 1D on the November ballot would provide 50 percent funding for the SMC Student Services building. The other 50 percent would be from Measure U funds. Included in the bond issue is a provision to simplify the process of approval for community college construction projects. The standards of construction would not be reduced if passed, but the period of time a project "sits" at the state level would be greatly reduced, which would help keep the costs of projects from increasing.

In response to a question raised about the need for a Theater Arts Building and a Performing Arts Center, it was clarified that the Theater Arts Building is used strictly for the instructional program and performances. The Performing Arts Center, which is comparable to a mid-size New York theater, will provide the college and the community a larger, professional venue for all kinds of performances.
